

# 10th International Congress on Design and Modeling of Mechanical System: Programme / Program

<b>SP</b>	Session Plénière		Interaction Fluid-Structure & Vibro-acoustics		Materials & Advanced materials
	Mechanisms and Robotics		Reliability, maintenance & Fault detection		Dynamics and Vibrations of Structures and machines
	Design Methodology, CAD/CAM & Tolerancing		Renewable and sustainable energies		Manufacturing & Additive Manufacturing
	Modeling and Computation of Structures		Tribology and contact mechanics		Biomechanics
	Fluid mechanics		Industrial applications & advanced technologies		Systems Engineering
	Mechatronics & systems Engineering		Smart machines and structures
